MIRENA® (levonorgestrel-releasing intrauterine system [52 mg]) is indicated for:

- Conception control for maximum up to 5 years
- Treatment of idiopathic menorrhagia following appropriate diagnostic investigation in women accepting the contraceptive effect of MIRENA®

Consult the MIRENA® Product Monograph at <https://www.bayer.com/sites/default/files/mirena-pm-en.pdf> for contraindications, warnings, precautions, adverse reactions, interactions, dosing, and conditions of clinical use. The Product Monograph is also available by calling 1-800-265-7382.
