

Mom and New Baby Clinic

The Queensway Carleton Hospital is pleased to offer our families the services of a drop-in clinic for mom and new baby.

QCH patients may return to the hospital within the first **3 weeks** after discharge. The clinic nurses will provide encouragement and support of breastfeeding, and ongoing teaching of newborn care & self care.

Moms are asked to keep note of the number of feedings, and wet & dirty diapers on your baby's "passport". This is helpful information to review with the clinic nurse.

You will need to register at Childbirth Registration Area before seeing the nurse. Make sure to bring your blue hospital cards (your baby's and your own) and your Ontario Health card with you for your clinic visit.

**Clinics are held Monday to Saturday
1:00 pm to 2:30 pm**
